

Brandon Lewis
Managing Director
The Trout Group LLC
San Fransisco, USA

Mr. Lewis joined the firm in 1998 where he has advised public and private biotech companies, both domestic and abroad, in a variety of capacities. He has developed a network within the biotechnology venture community specifically to support the IR needs of private companies. His experience includes work within finance, consulting, research and life sciences and M&A consulting services. He has been involved in the start-up phase of several companies, and has had first-hand experience in business development and licensing.

He holds a Bachelor of Science in Cardiopulmonary Science with a minor in Engineering and Small Business Management from Northeastern University and a Masters of Business

Administration in Finance at New York University's Stern School of Business. He also holds Series 7, 24 and 63 securities licenses. He is a member of the New York Biotechnology Association (NYBA) and the Stern Pharmaceutical and Healthcare Association (SPHA).
